ServeVelio

HELLO, I'M ELIAS A.

I am a **revenue operations strategist** specializing in eliminating lead decay for high-growth subscription and professional service companies.

Most marketing agencies generate traffic, but fail at fulfillment. I help build a high-velocity infrastructure that captures inbound leads instantly, **compressing response times from hours to minutes**. By deploying churn-reduction micro-copy, I transform raw ad traffic into compounding monthly **recurring revenue** and maximized customer lifetime value.

I secure the profit leaks your current pipelines ignore.
